

M3 is excited to announce enhancements to our Insight™ Business Intelligence Platform. Users with a Designer License will discover new features that enrich the dashboard creation and editing experience. If you don't have a Designer License and are interested in learning more, please [contact us](#) for further information.

Widget Styling

Streamline your dashboard customization with new, easy-to-use menu controls. Adjust the background color, border, shadow and more effortlessly —no scripts required.

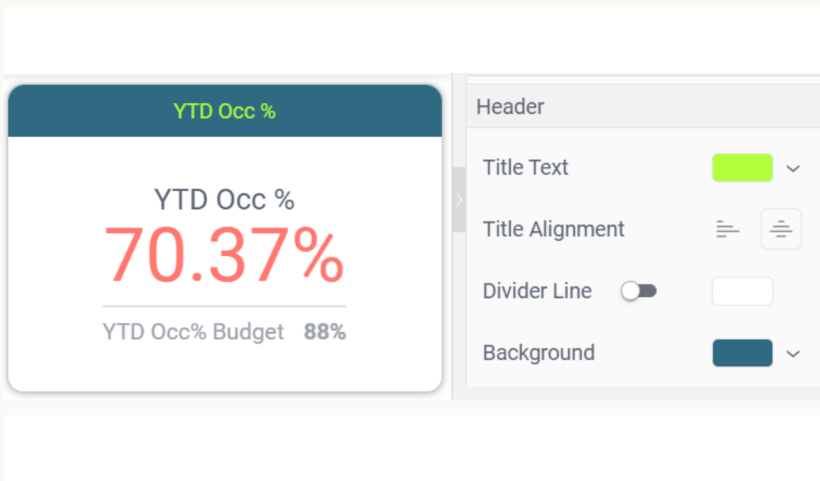

01

Widget Header

Customize widget Header attributes to visually group related widgets or align them with your exact brand colors for a sleek, professional look.

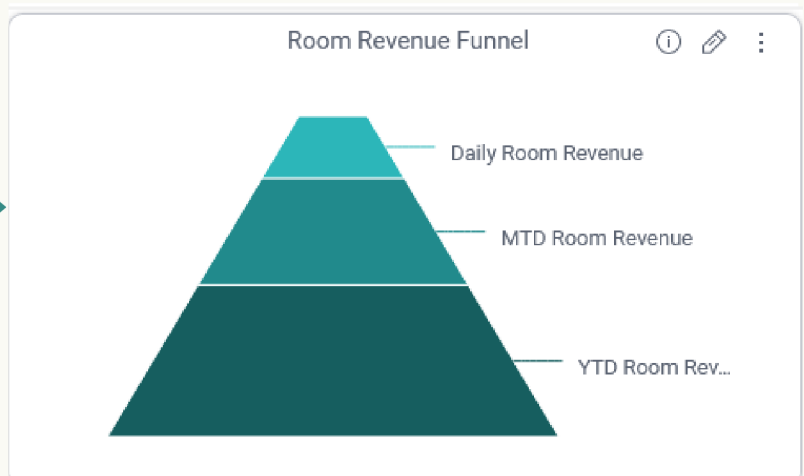

02

New Widget Type: Funnel

Explore new data visualization options with the new funnel widget, ideal for illustrating factors that impact net results.

03

New Widget Type: Histogram

Quickly group your data into ranges and display it as clear, easy-to-read bars, revealing patterns at a glance.

04
