

M3 is thrilled to unveil enhancements to our Insight™ Business Intelligence Platform. While much of this upgrade focuses on enhancing stability, security, and scalability behind the scenes, the following improvements are aimed at enhancing your overall experience.

## Updated Look and Feel

The styling of Insight™ Business Intelligence has received a subtle yet fresh update, offering an easy-to-view aesthetic with rounded widgets and a streamlined appearance.

01

## More Intuitive Date Filter

Dashboard filters have been enhanced for ease of use and greater control. You can now explore multiple filter options without the need to navigate different tabs.

02

Date | Edit Filter

- Include all (no filter applied)
- Month | Select
- Last | 1 | Month |  Include
- From: 2/1/2024 | To: 2/1/2024
- Is not | Year | S
- Custom

## More Flexible Date Filter

You also will find more options in filtering the date ranges as you explore your data. You can specify trailing dates (i.e. last 28 days), choose date ranges or include / exclude by year, quarter, etc...

03

Date | Edit Filter

- Include all (no filter applied)
- Year | Select
- Last | 1 | Month |  Including
- From: Select | To: Select
- Is not | Year |  Year |  Quarter |  Month |  Week |  Day
- Custom

## Added Control for List Filter

With the new "Is" and "Is Not" options, you can effortlessly include or exclude items, giving you greater control and precision in your selections.
